

Inter-model comparison: SFINCS vs HEC-RAS (N=995 simulations)

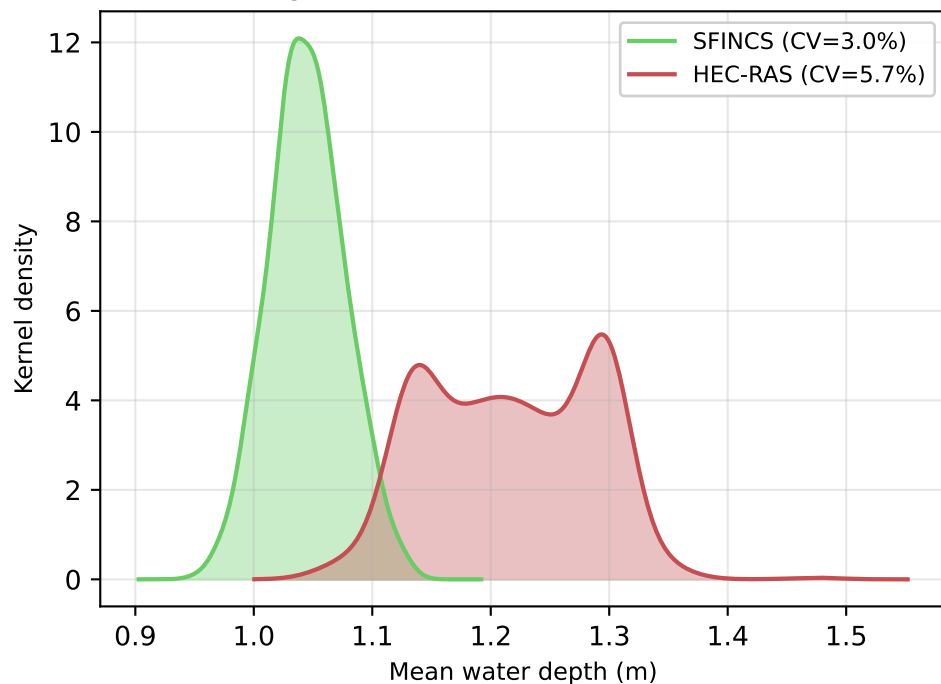

(a) Depth: $r=0.516$, $\text{bias}=+0.172$ m

(b) Area: $r=0.490$, $\text{bias}=+0.149$ km²

(c) Depth distributions across 995 simulations

(d) Area distributions — HEC-RAS bimodal, SFINCS unimodal
